

FABULOUS FINDS UPSCALE CONSIGNMENT

600 S. Airport Rd., Longmont, 720.340.4152, fabfindsconsign.com

It's been almost a year since Clarissa Edelen, owner of Fabulous Finds Upscale Consignment opened the doors of her second location, two doors down from her first and business is going great. This second location, especially for those sizes 16 and up, came as a response to an obvious need from customers. "We had so many requests," says Edelen. She explained that there's really only one other store that does what they do and it's in Denver. "It's a very underserved market. There's so much great clothing out there for the fuller figured gal. We just brought the shopping here to Longmont."

The clothing may cater to larger sizes, but the accessories are for everyone. Most shoppers end up walking back and

forth between locations. Making it a doubly great shopping experience for you and *all* of your girlfriends.

When you give customers what they ask for, they have a way of responding well, and many people would stop there,

but not Edelen. There's yet another location on the horizon.

The Fabulous Finds Outlet Boutique will open in Gunbarrel in December. The store will focus largely on clothing, carrying expired items from the other two locations, but here's the twist; a portion of the proceeds from every sale will go to A Woman's Work. As it is, 60 percent of specifically indicated consignment items go to the local charity, but that will be the overall focus of the outlet. For everything you get, you also give something in return.

"We know some of the need first hand from our customers. It's good to know that the people we're helping are our friends and neighbors. It's important," says Edelen. Clearly, her customers agree.
